

3.3 Messages & Reports Menu

3.3.1 Mission Log Report

The Mission Log Report screen provides the capability to display the Daily Mission Log Report.

To get this screen:

Daily Mission Log --> Mission Log Report

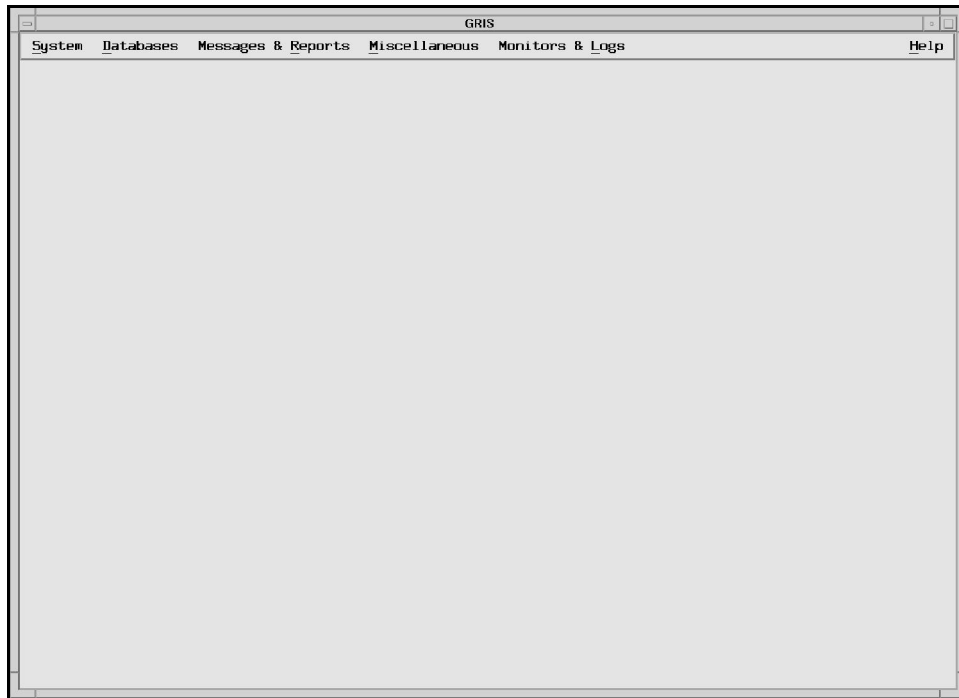

Figure 3-26: Mission Log Report Screen

Buttons and Data Fields Descriptions:

Total Found:

Number of items found in the mission database matching the selection criteria.

Total Retrieved:

Number of items retrieved and displayed by the Mission Index display screen.

[More]

Press to see more of the report.

[All]

Press for seeing all the report.

[Print]

Press for printing the report.

[Cancel]

Press for returning to the previous screen.

[Help]

Displays the on-line help for this screen.

3.3.1.1 Print

All Print buttons will give you the same print screen.

This screen looks and operates exactly the same as the screen described in section 3.2.1.9. For buttons and data field descriptions and a picture of this screen, see Section 3.2.1.9.

3.3.2 Mission Recap Query

The Monthly Mission Recap Report is normally generated after the end of a flying month to serve as a history of the past month's flying activities.

To get this screen:

Monthly Mission Recap --> Mission Recap Query

The image shows a standard Windows-style dialog box titled "Change Password". It has a light gray background and a thin border. Inside the dialog, there are two text labels, "Old Password:" and "New Password:", each followed by a black rectangular input field. At the bottom of the dialog, there are three buttons: "Save", "Undo", and "Cancel", each enclosed in a rectangular frame.

Figure 3-27: Mission Recap Query Screen

Buttons and Data Field Descriptions:

Period:

Enter a valid month and year for which to generate a report.

[Narrative]

Display the narrative remarks for the report.

[OK]

Generate the report.

[Cancel]

Returns to the GRIS main menu screen.

[Help]

Displays the on-line help for this screen.

3.3.2.1 Narrative Detail/Update for Mission Recap

The Narrative Text Detail screen allows the entry of narrative text, which is inserted at the beginning of the report.

To get this screen:

Monthly Mission Recap --> Mission Recap Query --> [Narrative] --> Narrative Detail/Update

Figure 3-28: Narrative Detail/Update for Mission Recap

Buttons and Data Field Descriptions:

Text Window:

[Save]

Saves the changes made in the text window of the current screen.

[Undo]

Clears any editing that the user may have begun.

[Cancel]

Returns to the previous screen.

[Help]

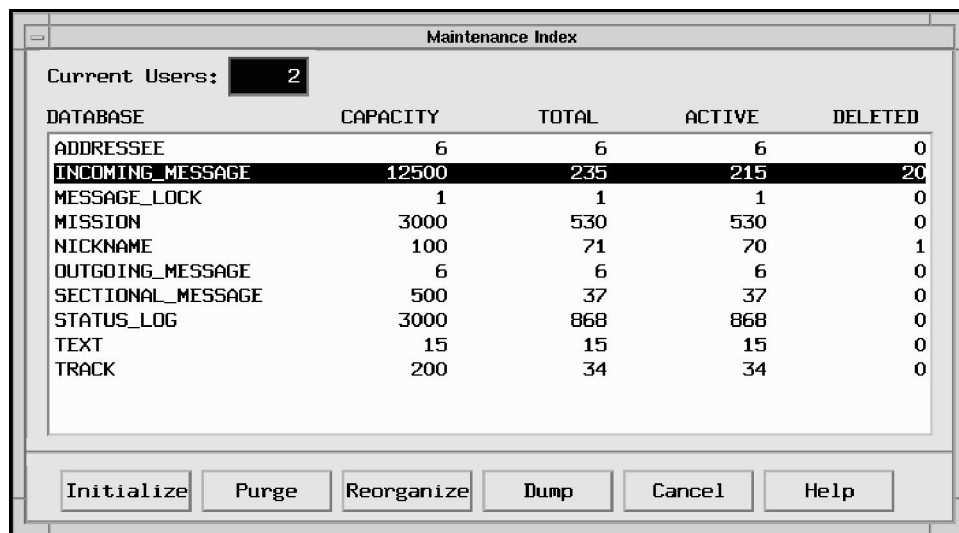

Displays the on-line help for this screen.

3.3.2.2 Mission Recap Report

The Mission Recap Report screen provides the capability to display Missions in Recap format.

To get this screen:

Monthly Mission Recap --> Mission Recap Query --> [OK] --> Mission Recap Report

The screenshot shows a window titled "Maintenance Index". Inside, there is a section labeled "Current Users:" with a text box containing the number "2". Below this is a table with five columns: DATABASE, CAPACITY, TOTAL, ACTIVE, and DELETED. The table lists various databases and their corresponding values. The row for "INCOMING_MESSAGE" is highlighted. At the bottom of the window, there are six buttons: Initialize, Purge, Reorganize, Dump, Cancel, and Help.

DATABASE	CAPACITY	TOTAL	ACTIVE	DELETED
ADDRESSEE	6	6	6	0
INCOMING_MESSAGE	12500	235	215	20
MESSAGE_LOCK	1	1	1	0
MISSION	3000	530	530	0
NICKNAME	100	71	70	1
OUTGOING_MESSAGE	6	6	6	0
SECTIONAL_MESSAGE	500	37	37	0
STATUS_LOG	3000	868	868	0
TEXT	15	15	15	0
TRACK	200	34	34	0

Figure 3-29: Mission Recap Report Screen

For buttons and data field descriptions see section 3.3.1.

3.3.3 Mission Overview Query

The screen allows you to enter/indicate criteria for the Mission Overview Query.

To get this screen:

Mission Overview --> Mission Query

The screenshot shows a window titled "Mission Query". At the top left is a "Mission#" field with a blacked-out value. The main area is divided into several sections:

- Mission Selection:** A list of options with diamond-shaped selection icons: Available (all *), Cancelled, Deleted, Flown Abort Complete, Flown Abort Incomplete*, Flown as Scheduled, Flown Deviation, Flying as Scheduled, Flying Deviation, Indefinitely Delayed*, Requested, and Sched/Resched/Delayed*.
- Command:** A grid of options with diamond-shaped selection icons: ACOM, PACOM, CENTCOM, SOUTHCOM, and EUCOM.
- Miscellaneous:** Two checkboxes: "QRC/Cont No ETD" and "with errors".
- Sort Criteria:** A list of criteria: CINC, AREA, PROGRAM, PURPOSE, TRACK, LANDING DTG, and MISSION NUMBER. There are left and right arrow buttons next to this list.
- Sequence Order:** A list with "TAKEDOFF" and "DTG".
- DTG Range:** Four checkboxes: "Current 4 Days", "Today", "Yesterday", and "Tomorrow". Below them are two date fields: "010000ZJAN95" and "010000ZAPR95", separated by "to".
- Time Period:** Three checkboxes: "Last Month", "Current Month", and "Next Month". Below them is a "Period (MONYY):" field with a blacked-out value.
- Subquery Options:** A row of five buttons: "Program", "Area", "Track", "Purpose", and "ICAO".

At the bottom of the window is a row of seven buttons: "Index", "Recap", "Log", "Detail", "Reset", "Cancel", and "Help".

Figure 3-30: Mission Overview Query Screen

[Report]

Generate the Report according to the selections/criteria entered on this screen.

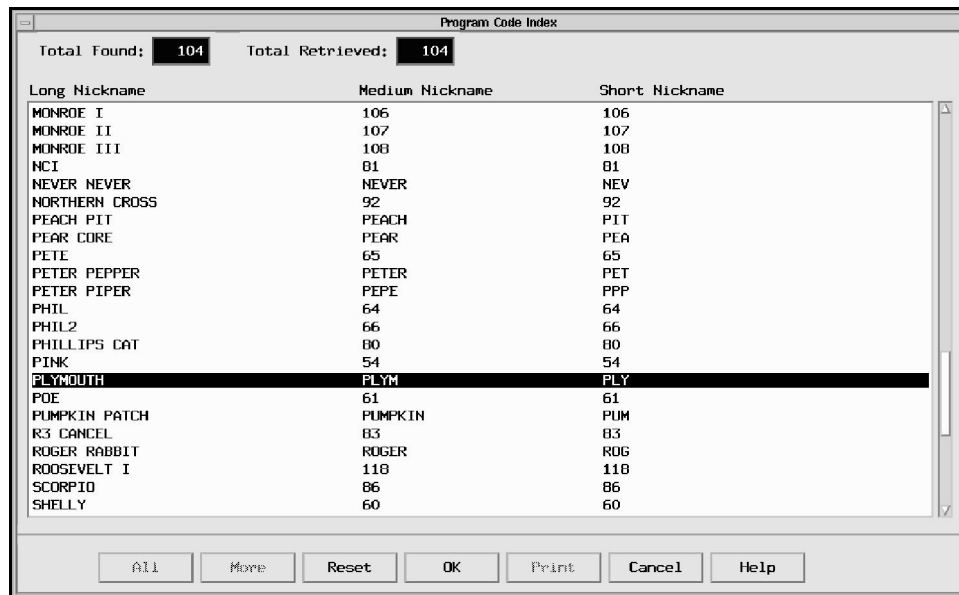

This screen looks and operates the same as the screen described in section 3.2.1, except that it has the [Report] button. For all other buttons and data fields descriptions see section 3.2.1.

3.3.3.1 Mission Overview Report

The Mission Overview Report screen provides the capability to display the Mission Overview Report.

To get this screen:

Mission Overview --> Mission Query --> [Report] --> Mission Report

3.3.4.1 Mission Query for 2 Day Chart

To get this screen:

Mission Chart/Matrix --> 2 Day Chart --> Mission Query

This screen looks and operates the same as the screen described in Section 3.2.1 (You will find that the sort criteria are different). For buttons and data field descriptions and a picture of this screen, see Section 3.2.1.

3.3.4.2 Mission Query for 4 Day Chart

To get this screen:

Mission Chart/Matrix --> 4 Day Chart --> Mission Query

This screen looks and operates the same as the screen described in Section 3.2.1 (You will find that the sort criteria are different). For buttons and data field descriptions and a picture of this screen, see Section 3.2.1.

3.3.4.3 Mission Query for Mission Matrix

To get this screen:

Mission Chart/Matrix --> Matrix --> Mission Query

This screen looks and operates the same as the screen described in Section 3.2.1. (You will find that the sort criteria are different). For buttons and data fields descriptions and a picture of this screen see Section 3.2.1.

3.3.5 Track Dictionary Query

The Track Dictionary screen provides the capability to retrieve and display all or selected tracks.

To get this screen:

Track Dictionary --> Track Dictionary Query

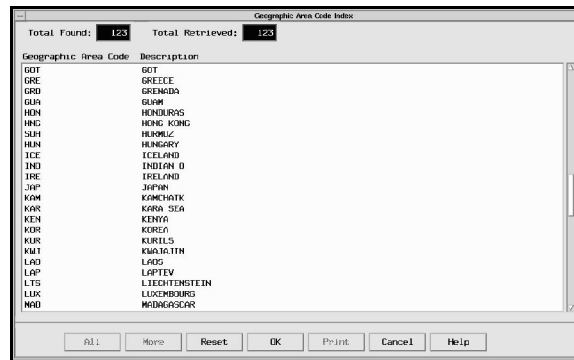

Figure 3-32: Track Dictionary Query screen

Buttons and Data Fields Descriptions:

Change #:

Change pages are to be printed, the entered change number will be printed on each change page.

[New Title]

Displays the Track Dictionary New Title page.

[Chng Title]

Displays Track Dictionary Change Title page.

[Distrib]

Displays the Track Dictionary Distribution page.

[Remarks]

Displays the Track Dictionary remarks.

[Generate]

Generates and displays the Track Dictionary Report or change pages (if Track Dictionary Index has been selected previously).

[Index]

Displays the Track Dictionary Index .

[OK]**[Cancel]**

Press for returning to the previous screen. Displays the last Track Dictionary Report generated.

[Help]

Displays the on-line help for this screen.

3.3.5.1 Track Dictionary Report

The Track Dictionary Report screen provides the capability to display the Track Dictionary Report.

To get this screen:

For buttons and data fields descriptions see Section 3.3.1

3.3.5.2 Track Dictionary Index

This screen displays the track dictionary table of contents in order to print change pages. Select the change pages you want printed and press [OK].

To get this screen:

Track Dictionary --> Track Dictionary Query --> [Index] --> Track Dictionary Report

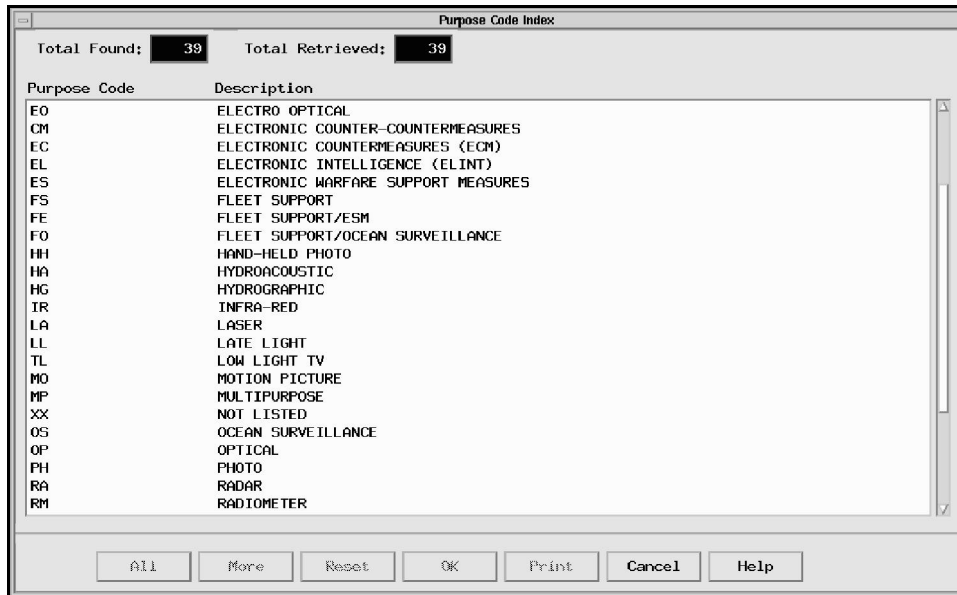

Figure 3-34: Track Dictionary Index Screen

Buttons and Data Field Descriptions:

Total Found:

Number of items that match the selection criteria.

Total Retrieved:

Number of items retrieved and displayed by the interface.

Track:

Track Number

Nickname:

Nickname associated with the track.

Chg#:

The change number associated with the page.

Pg#:

The page number, in format <chapter#>-<page#>.

Page-Type:

What kind of a page it is.

Update:

Date last updated.

Review:

Date last reviewed.

[More]

Selection criteria entered on the previous screen resulted in the first N items being retrieved and displayed in the list box of the current screen. Initially only the first N items are displayed so that the user need not wait for all items matching the criteria to be retrieved before any are displayed in the list box. Press the More button for N more items.

[All]

Displays all items matching the selection criteria. If the total retrieved is very large, you may choose to press More repeatedly since there could be a delay in waiting for all matching items to be retrieved before any are displayed in the list box.

[Reset]

Clears all selections without leaving this screen.

[OK]

Display Track Dictionary Index.

[Print]

[Cancel]

Returns to the previous screen.

[Help]

Displays the on-line help for this screen.

3.3.5.3 Narrative Detail/Update for New Title

To get this screen:

Track Dictionary --> Track Dictionary Query -->[New Title] --> Narrative Detail/Update for New Title

The screenshot shows a window titled "Mission Index". At the top, it displays "Total Found: 2" and "Total Retrieved: 2". Below this is a table with columns: MSN#, Program, ACFT, Status, Track#, ASMT, Target, GAC, PPSP, Takeoff, and Landing. The table contains two rows of data for "ANDROMEDA STRAIN".

MSN#	Program	ACFT	Status	Track#	ASMT	Target	GAC	PPSP	Takeoff	Landing

Figure 3-36: Narrative Detail/Update for Change Title

For buttons and data field descriptions, see Section 3.3.2.1 .

3.3.5.5 Narrative Detail/Update for Distribution

To get this screen:

Track Dictionary --> Track Dictionary Query -->[Distrib] --> Narrative Detail/Update for Distribution

The screenshot shows a software window titled "Mission Detail/Update". It contains several data entry fields and buttons. The fields are organized into two main columns: "SCHEDULED" and "ACTUAL".

SCHEDULED		ACTUAL	
Mission: 50PPT7	Program: TAURUS	Track: 500007	
Status: CANCEL	Purpose: HGHM	Assessment: 3C3	
Result: BLANK FIELD	Aircraft: 3UH-60	Takeoff: 0000002MAR95	0000002MAR95
Reason: WC	Coordinated: 1	Landing: 0000002MAR95	0000002MAR95
Line #:	<input type="checkbox"/> Contingency <input type="checkbox"/> Added	Departure Loc.: PAEI	
Callsign:		Arrival Loc.:	

Below the fields, there is a "Match Remark" field and a "Remarks" section. The "Remarks" section contains a text area with the following text: "222207ZMAR ADD ETD = ETA = TRK = 500007". To the right of the text area is a "Detail" button. Below the "Detail" button is a "1 of 2" indicator. At the bottom of the window are several buttons: Delete, Save, Reset, Previous, Next, Print, Query, Cancel, and Help.

This button is not applicable to this screen. It is always dimmed.

Mission:

Mission jumps to any errors caught during message generation.

[OK]

Displays the Outgoing Message Detail/Update screen.

[Cancel]

Returns to the previous screen.

[Help]

Displays the on-line help for this screen.

3.3.7.3.1 Outgoing Message Detail/Update for Fresh Milk Generation

The Outgoing Message Detail/Update screen is used for displaying the outgoing messages, which can be edited before transmission.

To get this screen:

Outgoing Messages --> Fresh Milk --> Fresh Milk Generation --> [OK] --> Message Detail/Update

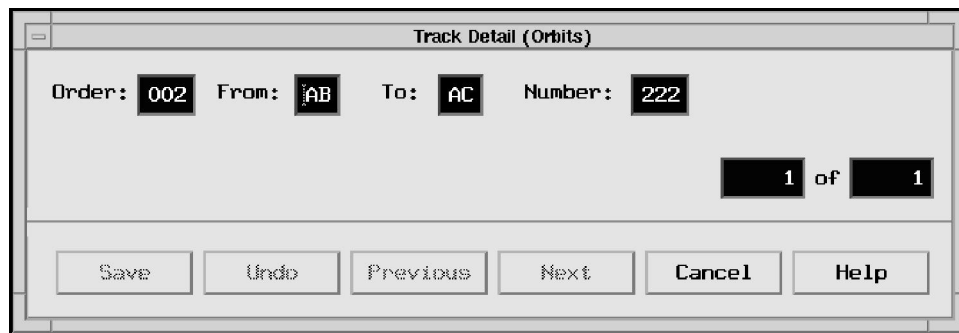

The image shows a software window titled "Track Detail (Orbits)". Inside the window, there are four fields: "Order:" with the value "002", "From:" with the value "AB", "To:" with the value "AC", and "Number:" with the value "222". Below these fields, on the right side, it says "1 of 1". At the bottom of the window, there is a row of six buttons: "Save", "Undo", "Previous", "Next", "Cancel", and "Help".

Figure 3-43: Outgoing Message Detail/Update screen

For buttons and data field descriptions, see Section 3.3.7.1.1.

3.3.7.4 Outgoing Message Generation for SRO Summary

To get this screen:

Outgoing Messages --> SRO Summary --> Outgoing Message Generation

This screen looks and operates exactly the same as the screen described in Section 3.3.7.1. For buttons and data field descriptions and a picture of this screen, see Section 3.3.7.1.

3.3.7.4.1 Outgoing Message Detail/Update for SRO Summary

To get this screen:

Outgoing Messages --> SRO Summary --> Outgoing Message Generation --> [OK] --> Message Detail/Update

This screen looks and operates the same as the screen described in Section 3.3.7.1.1. For buttons and data fields descriptions and a picture of this screen see Section 3.3.7.1.1.

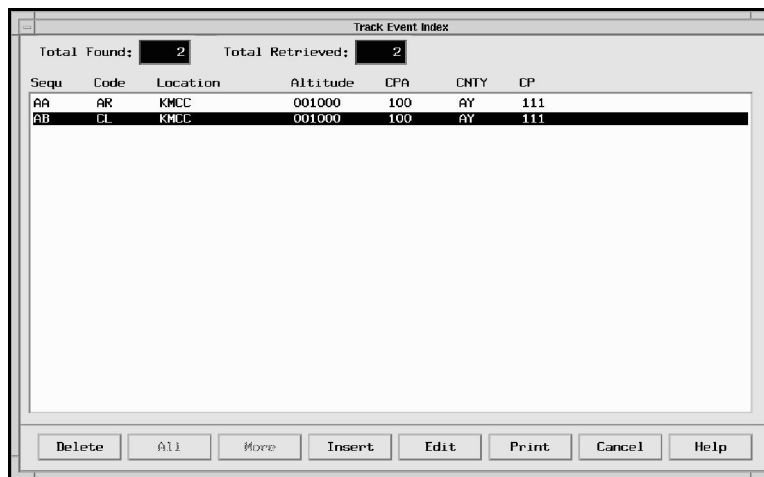

3.3.7.5 Statistical Summary for Outgoing Messages

Outgoing Messages --> Statistical Summary --> Not implemented in this release.

3.3.8.1 Narrative Detail/Update for Mission Recap

To get this screen:

Narrative Text --> Mission Recap --> Narrative Detail/Update

The screenshot shows a window titled "Track Event Index". At the top, it displays "Total Found: 2" and "Total Retrieved: 2". Below this is a table with the following columns: Sequ, Code, Location, Altitude, CPA, CNTY, and CP. The table contains two rows of data. The first row has values: AA, AR, KMCC, 001000, 100, AY, 111. The second row has values: AB, CL, KMCC, 001000, 100, AY, 111. Below the table is a large empty rectangular area. At the bottom of the window are several buttons: Delete, All, More, Insert, Edit, Print, Cancel, and Help.

Sequ	Code	Location	Altitude	CPA	CNTY	CP
AA	AR	KMCC	001000	100	AY	111
AB	CL	KMCC	001000	100	AY	111

Figure 3-44: The Narrative Detail/Update for Mission Recap

For buttons and data field descriptions, see Section 3.3.2.1.
